

For I Heard Them Say, Let Us Go To Dothan"--To The Fair

THE DOTHAN EAGLE

DOTHAN'S POPULATION: 1890, 247; 1930, 3,275; 1910, 7,016; 1920, 20,000. "FOR I HEARD THEM SAY, LET US GO TO DOTHAN."

DOTHAN, ALABAMA, WEDNESDAY AFTERNOON, OCTOBER 28, 1914.

WEATHER

Fair tonight and Thursday with slowly rising temperature.

DIERS USE DEAD BODIES FOR BRIDGE

Paris, Oct. 28.—Although German forces have lost ground near Dixmude, Allies and invaders are still in a death grapple along the Yser in northwestern Belgium and fighting there is unparalleled severity. Seven times the Germans have crossed the canal only to be driven back across the corpse choked stream. At some points dead bodies dammed the stream and soldiers used them as bridges. Both sides of the canal are lined with unburied dead.

British warships which were driven off by heavy guns have taken a new position and are again bombarding the German forces.

Our store will be open from 4:30 to 7:30 p. m. for supper orders. Harry Grocery Co.

SHIP IS SUNK

London, Oct. 28.—The trawler, City of London, arrived at Fleetwood today with survivors of the lighter Manchester, a commercial ship, which struck a mine off northern Ireland Monday.

Captain Payne and thirteen of the crew were drowned. The City of London sank in seven minutes after striking the mine.

DEFY CARRANZA WILL

Washington, Oct. 28.—Word from the peace conference at Anguilla, C. M., that President Carranza had been deposed was expected by administration officials today. It is believed Carranza will defy the convention and his future action is subject of concern, but it is believed if fighting again breaks out he will be short lived as Carranza's forces are expected to scatter.

FRENCH ADVANCING.

Paris, Oct. 28.—It is officially announced that the French are advancing on both wings.

JAPAN TO EXPAND

Tokio, Oct. 28.—Premier Okuma has hitherto been opposed to military and naval expansion, assembled political leaders of all factions today and declared Japan will expand her army and navy at once.

Remember You Need a Good Tonic. The Old Standard Grape Nuts Tonic is really valuable as a tonic because it contains the famous tonic properties of QUININE. It cleans the Liver, Drives out the Worms, Enriches the Blood and Gives the Whole System a New Vigor. 25 cents.

GERMAN FORCES IN RETREAT FROM POLAND

Petrograd, Oct. 28.—That Russian troops continue to pursue German forces in retreat from Poland was officially announced today. In Galicia fighting is slackening owing to exhaustion of attacking Austrian forces. The attempt of Austrians to envelop the Russian left wing has failed.

BOER UPRISING MORE EXTENDED AND SERIOUS

London, Oct. 28.—The news from Pretoria that General Christian Weyer, Minister of Agriculture for the Orange Free States, has joined the rebels and will lead armed forces against the British, makes it plain that the Boer uprising is more extended and serious than was first believed.

General Dwyer gained fame as a soldier of the Boer war and has a great influence. His disaffection is a hard blow. It is understood Kitchener will send a big force against Dwyer to wipe out sedition before it spreads.

BOERS BEATEN.

Capetown, South Africa, Oct. 28.—Rebellious Boers at Kalamas have been beaten by the British.

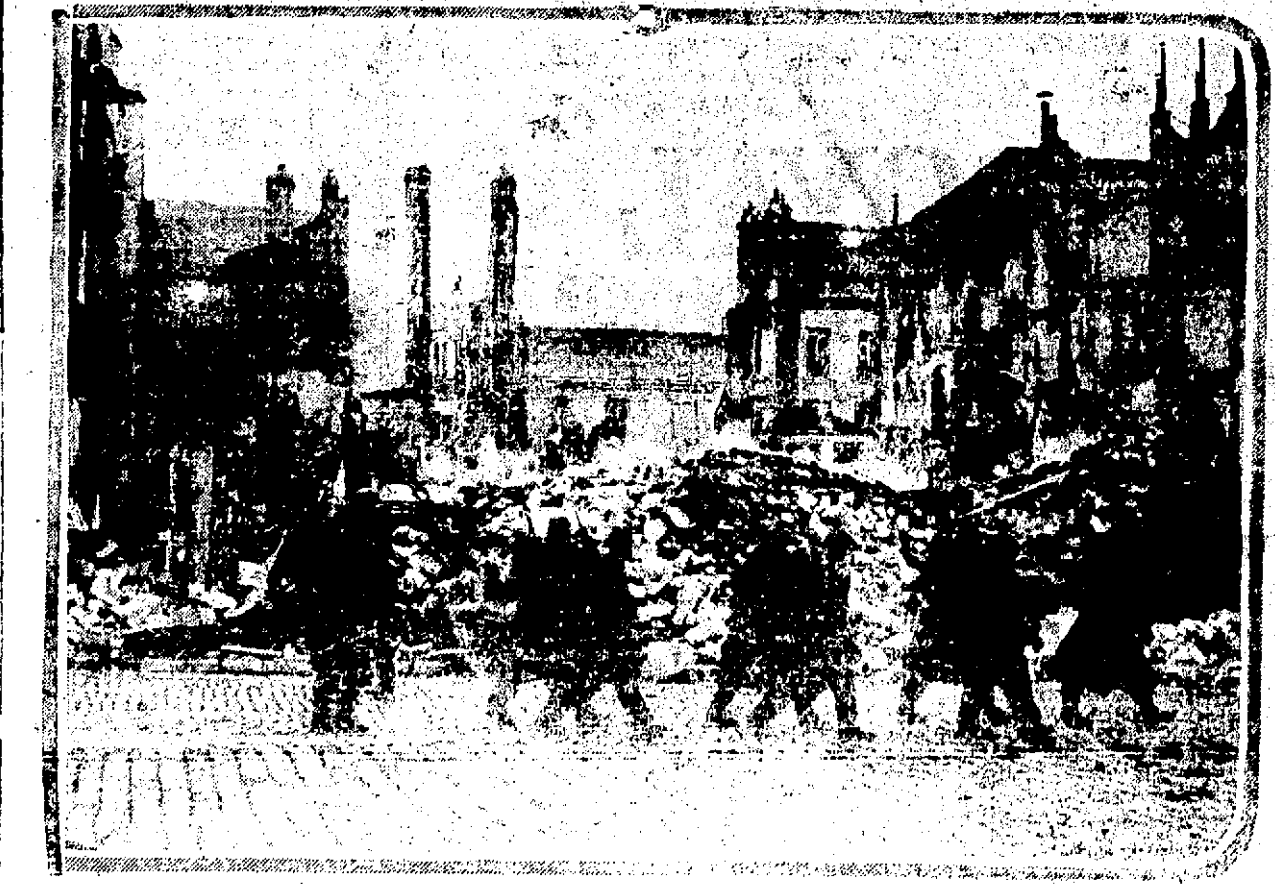

EASY TO DARKEN YOUR GRAY HAIR

You Can Bring Back Color and Lustre with Sage Tea and Sulphur.

When you darken your hair with Sage Tea and Sulphur, no one can tell, because it's done so naturally so evenly. Preparing this mixture though at home is messy and troublesome. For 50 cents you can buy at any drug store the ready-to-use tonic called "Wyeth's Sage and Sulphur Compound." You just dampen a sponge or soft brush with it and draw this through your hair taking one small strand at a time. By morning all gray hair disappears, and, after another application or two, your hair becomes beautifully darkened, glossy and luxuriant. You will also discover dandruff is gone and hair has stopped falling.

Gray, faded hair, though no disgrace, is a sign of old age, and as we all desire a youthful and attractive appearance, get busy at once with Wyeth's Sage and Sulphur and look years younger.

PRIVATE RESIDENCES DESTROYED BY GERMAN SHELLS MEANT FOR CATHEDRAL

This photograph shows a street just beyond the Rhine Cathedral which was made the target for the German guns three weeks ago. Many private residences were destroyed by the shells that overshot their mark.

Side Lights on London During War Time

By HERBERT TEMPLE
European Manager of the International News Service.

London, Oct. 28.—London in war time presents a variety of aspects, strange to the habits of the world's metropolis. The public of every country now knows that London is dark of nights in order not to present any easy target for German Zeppelin attacks. But that is only one of the strange things that attracts attention.

The "personal" and "want ad" columns of the London daily papers in these days present exceedingly interesting reading matter to those who have time to read them. They contain all manner of communications bearing on the war. There are to be seen daily a great many advertisements along this line:

"Educated Englishman, eligible for enlistment, needs 75 pounds (\$375) to pay debts and provide for family in order that he may enlist for service. Best of references. Who will help? Address XYZ."

Another:

"Englishman, best of references, has been offered a commission, but cannot accept because hard up. Who will help with small loan to care for family while at the front? Address ABC."

Then there are a great many advertisements like the following:

"Educated Englishman, speaks French and German, willing to donate services as private secretary or clerk to enable some young man to enlist."

And:

"Girls of all ages and accomplishments anxious to do men's work in order that men may go to the

front."

In addition to these, there are many various "personals" inserted in the newspapers. For instance:

"Lady wishes to sell her bridal bag in order to help maintain soldiers on the firing line."

"Lady of means, desirous of helping men who want to enlist is willing to hire substitutes to take their commercial positions."

"Lady, expert chauffeur, owning own car would like to be of voluntary service, carrying despatches, conveying recruits to camps, or in any other possible way."

"Lady offers diamond bracelet to highest bidder. Proceeds to go toward relieving distress."

Other varieties of "wants" that strike the eye are for help in getting to the front, such as:

"Will anyone owning service revolver be willing to loan until soldier going to the front can obtain another?"

"Gentleman wishing to form a cavalry division wants to meet other gentlemen willing to enlist."

"Gentleman, unmarried, going to the front wants someone willing to write him home news in exchange for occasional censored postcards from the firing line."

All of the London newspapers too, carry a variety of advertisements urging recruits to join the army. One of them:

"Your king and country need you. Lord Kitchener wants every able-bodied man to enlist. God save the King."

Besides such advertisements, there are scores appearing in all the daily newspapers, proclaiming "Made in England" goods. Clothing, boots and shoes, drugs, edibles

and all other commodities are advertised as of English make, for the reason that immediately on the outbreak of war there was a whole-scale crusade throughout the British Empire against all goods of German manufacture.

In this connection some really amazing advertisements may be seen, among them this:

"Action for Label, J. Lyons & Co., Ltd. (Plaintiffs) vs. Lipton, Ltd. (Defendants.) In the High Court of Justice, Mr. Justice Sankey granted an interim injunction restraining Lipton, Ltd., their agents and servants from speaking or publishing or writing any word to the effect or of the substance that J. Lyons & Co., Ltd. or the directorate thereof, in compass of Germans and that by purchasing their commodities, the public is assisting the enemies of Great Britain."

"J. Lyons & Co., Ltd. (By Appointment to His Majesty, the King) is an All-British Company, with All-British directors and has 14,000 All-British shareholders."

GERMANS SINK JAPANESE PASSENGER STEAMER

Berlin, Oct. 28.—The government announces that the German cruiser Emden which has paralyzed British shipping in the Orient, has sunk the Japanese passenger steamer Kama-kamaru.

AUSTRIANS CAPTURE 10,000 RUSSIANS

Vienna, Oct. 28.—The capture of ten thousand Russians by Austrian forces was officially announced today.

ALABAMA RIFLE TEAM FALLS DOWN IN SHOOTING

Captain C. J. Morris, of Dothan, Makes Highest Score.

The rifle matches at the State camp grounds, near Black Point, Fla., closed recently with Mississippi carrying off the honors in the individual rifle match, Sergeant E. Walters, Company E, Mississippi Independent Infantry, making the highest score, 326 out of a possible 350. The Alabama riflemen made scores as follows:

Captain C. J. Morris, Dothan, 313; Sergeant J. M. Hissett, Dothan, 297; Major T. C. Locke, Adjutant General's Department, 300; Lieutenant C. E. Teal, Montgomery, 302; Lieutenant H. T. Wingo, Birmingham, 300; Sergeant J. F. Womelsdorf, Company K, Fourth Alabama, 298; Sergeant J. C. Beatty, Company C, Second Alabama, 296; Sergeant Robert C. Pratt, Company K, Fourth Alabama, 291; Sergeant V. T. Jordan, Mobile, 286; Sergeant W. A. Hurst, Dothan, 285; Sergeant W. Warren, Montgomery, 265; Sergeant W. G. Bibb, Montgomery, 264; Sergeant J. T. Vickers, Dothan, 263; Sergeant J. E. Russell, Company K, Fourth Alabama, 231; Sergeant W. L. Evans, Montgomery, 225; Captain W. H. Amerine, Signal Corps, 219; Sergeant R. L. Matthews, 189.

This puts Alabama away down near the tail end, and the usual remarkable thing about it is that no private from Alabama is in the shooting. The moment he gets in the rifle team the man gets on his feet and shoots his way to promotion. There were but eight pri-

MERCHANTS TO CLOSE DOORS

This is Dothan Day at the Fair grounds. Many merchants have consented to close their doors in order that their employees may take in the big show.

Not only will Dothan be well represented at the Fair grounds, but indications are that many out of town people will be here for the big events this afternoon and night. Fair visitors began flocking to the city early this morning.

The program this afternoon will include horse racing, free acrobatic acts, motorcycle racing, and other interesting numbers. The motorcycle races are last on the program each day.

Despite the cold and windy weather yesterday, the attendance was good, but a large attendance is expected today.

ALIEN HUFFER REVERED LONES

Berlin, Oct. 28.—The war office today announced that the allies have suffered severe losses in Belgium and the Germans are fighting with conspicuous bravery.

PASTRY DAY.

Tomorrow afternoon at 2:30 we will show you how to cook pastry. Ten kinds of tea cakes and cookies from one recipe. Pie pastry, jelly rolls, layer cake, every kind of pastry. Everything will be free to the ladies. Don't miss this opportunity.

THE HIGH PRICE OF
INCONVENIENCE

In the November American Magazine Ida M. Tarbell begins a new series of articles entitled "The Golden Rule in Business"—showing how it pays in dollars and cents, in personal satisfaction, and in human happiness. Miss Tarbell has been gathering material for this series of articles for two or three years and she intends to present a comprehensive account of industry as it is carried on in the United States today. It is evident from the first article, entitled "Our New Work-shops," that she has found vast improvements in our industries and that she looks upon these improvements with great interest and satisfaction. In her article she gives a highly entertaining and important account of the achievements of scientific management in present day factories. In the following extract from her article appears an illustration of what she means:

"Disorder and dirt are probably the most wasteful features in industry, but inconveniences are a close second. Scientific management has fully demonstrated this by studying the time it takes a man to perform a task under different conditions. For instance, the old way of putting the parts of a machine together was to place everything on the floor. The workman had to crouch down, or actually sit on the floor while he was assembling the parts which came in the lower part of the machine. Now an adjustable table is provided which can be placed at different heights, so that as the machine grows higher, the table is lowered and the workman finds himself working in the position which is least cramped. The result is that he does more work and with less fatigue."

"An extensive study of clerical work resulted in adjustable chairs by which a clerk could take seven different positions. This was done solely to remove the nervous tension and fatigue which comes from keeping one position for a number of hours—no make it easier for people to do their work."

The farmers of this country have made the rule what it is, in the way of increasing agricultural efficiency. They are far ahead of what our people are used to seeing at Birmingham, and Birmingham, and other well-known building fairs. We have farmers down here who produce something really worth while."

The case with this country has been in full blast for the past few weeks. No section of the United States makes a better grade of cotton crop than Houston and the Wharton counties.

Experts Who Know

They speak from their own experience; years of practical work in the preparation of perfect food for particular people. Their testimony cannot be gainsaid:

"To obtain the best results we use and recommend for use 'Royal' Baking Powder. We find it superior to all others."

—"The International Mutual Cooks and Pastry Cooks Assn."
"Adolph Meyer, Sec'y."

ROYAL BAKING POWDER

Absolutely Pure No Alum

OUR OPPORTUNITY.

From The Philistine.

We are hearing a good deal about the high cost of living, but things are going to be higher than they are now, and we had better make up our mind to it and not shed any lacrimose pearly drops. The vital thing is not the low cost of living, but an increased buying power, and this we are all going to have.

Last week in Ames (Iowa) I saw a hundred students hire out at four dollars a day and board to do threshing and lay tile.

Henry Ford's five dollars a day as a minimum wage is not so very far a way, and it is understood that any man who is paid five dollars a day for his labor is to a minimum of monkeying and for him supervision is to be reduced to a chemical trace.

A higher standard of wages means a higher standard of living, and a higher standard of living means better men and better women. Washington and Wall Street are now sleeping in twin beds and the District of Columbia is explaining to the world that Wall Street is not the detestable thing that the saffron publications have intimated.

In America there are no war lords. In America we have suffragettes, but happily they are only mildly militant.

The armed bully has no footing here. We are farmers, manufacturers, railroadmen, miners, merchants, teachers, and when all Europe is cultivating peace, fighting, destroying, and all the time consuming, this is our opportunity, and we are going to improve it.

Any man or woman who is not an imbecile or a cripple will have a chance to get decently rich during the next two years.

Wise people, when they have not been killed have always prospered at the expense of the fighting fools.

This is our chance, and we are going to improve it.

All the war correspondents had as well be back home. They are sending nothing to us from Europe that would make people buy papers to read. Might as well take a weekly magazine to keep posted, for it is about as exciting.

BEST TIME FOR PLANT-
ING OATS.

A reader has land in Ispedeza which he is now (September 7) preparing to cut, and wants to know if he can "sow this land to oats and red clover about October 25, provided the land is well prepared two or three weeks before planting time."

We believe it is generally a good plan to break land some time before sowing fall crops, if it can be done, because there is less danger of the crop suffering for lack of moisture when sowed; but we would not delay the sowing of a crop until too late in order to give time between plowing and seeding. We believe October 25 too late to sow oats in central Mississippi for the best results, and feel certain that this is too late for red clover for the best results an average year. If the land can be put in good condition by October 1 we would advise sowing the oats and red clover at once rather than wait until October 25 for the land to settle.—H. R. Fulton, in The Progressive Farmer.

NOT MUCH POTATO.

The Florence Times has received a sweet potato from a man in the Mississippi delta that beats all records in that section according to The Times. The land in the delta must not be as good as advertised, for this potato weighs only seven and one-quarter pounds, yet it seems to be a record breaker for that section.

If those farmers will come to Houston county we will show them how to raise big potatoes. There is one on exhibition at the Fair grown within the corporate limits of Dothan that weighs sixteen and one-half pounds.

The fact of the business is down here in Houston we do not consider that a potato is entitled to any special notice unless it weighs ten pounds or more. We raise big ones every year and lots of them and never make a failure.

This has been a great get-together-week for Dothan and Houston county. The fair next year will be a still better one. We have the habit now. The people like it, and take an interest in it.

Of the many cavities left in Atchison in the way of vacant store buildings when the saloons went out seven or eight years ago (you will remember that Atchison was an insurgent and ignored the prohibitory law for more than twenty years after its enactment) scarcely one cavity remains. Many citizens opposed prohibition on the theory that it would hurt the town, and they probably were right about it at the time. Sentiment has changed. People no longer poke fun at a town because it is dry, and point with pride to its more prosperous neighbors, and the time is not far distant, if it has not already arrived, when a dry town will be at a distinct advantage. Common sense is everywhere looking upon the saloon as it does on contagion, and eventually Kansas City and St. Joe will both be dry and cease to reap the harvest of easy money from dry Kansas.—Atchison Globe.

An Advertiser reporter got hold of Oscar Mulkey the other night in Montgomery and Oscar wouldn't talk but that didn't matter with the reporter. He made talk, and quoted Oscar as saying that "never again," or words to that effect. But nothing like that was said, or even thought and the Short Term Member made a correction and asked the Advertiser to print it, which it did, but it took a proof reader to find it.

What is it, slubdash? That thing the papers are printing about the close confinement at Washington during the past few months. The idea of a congressman tiring of Washington. When they tire of the work at Washington they only have to let it be known to the voters back home, and they are relieved with great glee.
